

SeekIt

An interactive learning experience

Our Mission

To provide a different approach in education by engaging students in interactive events to expand their learning beyond the classroom.

About Our App

SeekIt gives instructors the ability to engage students in scavenger hunt events as a class assignment!

Using the App

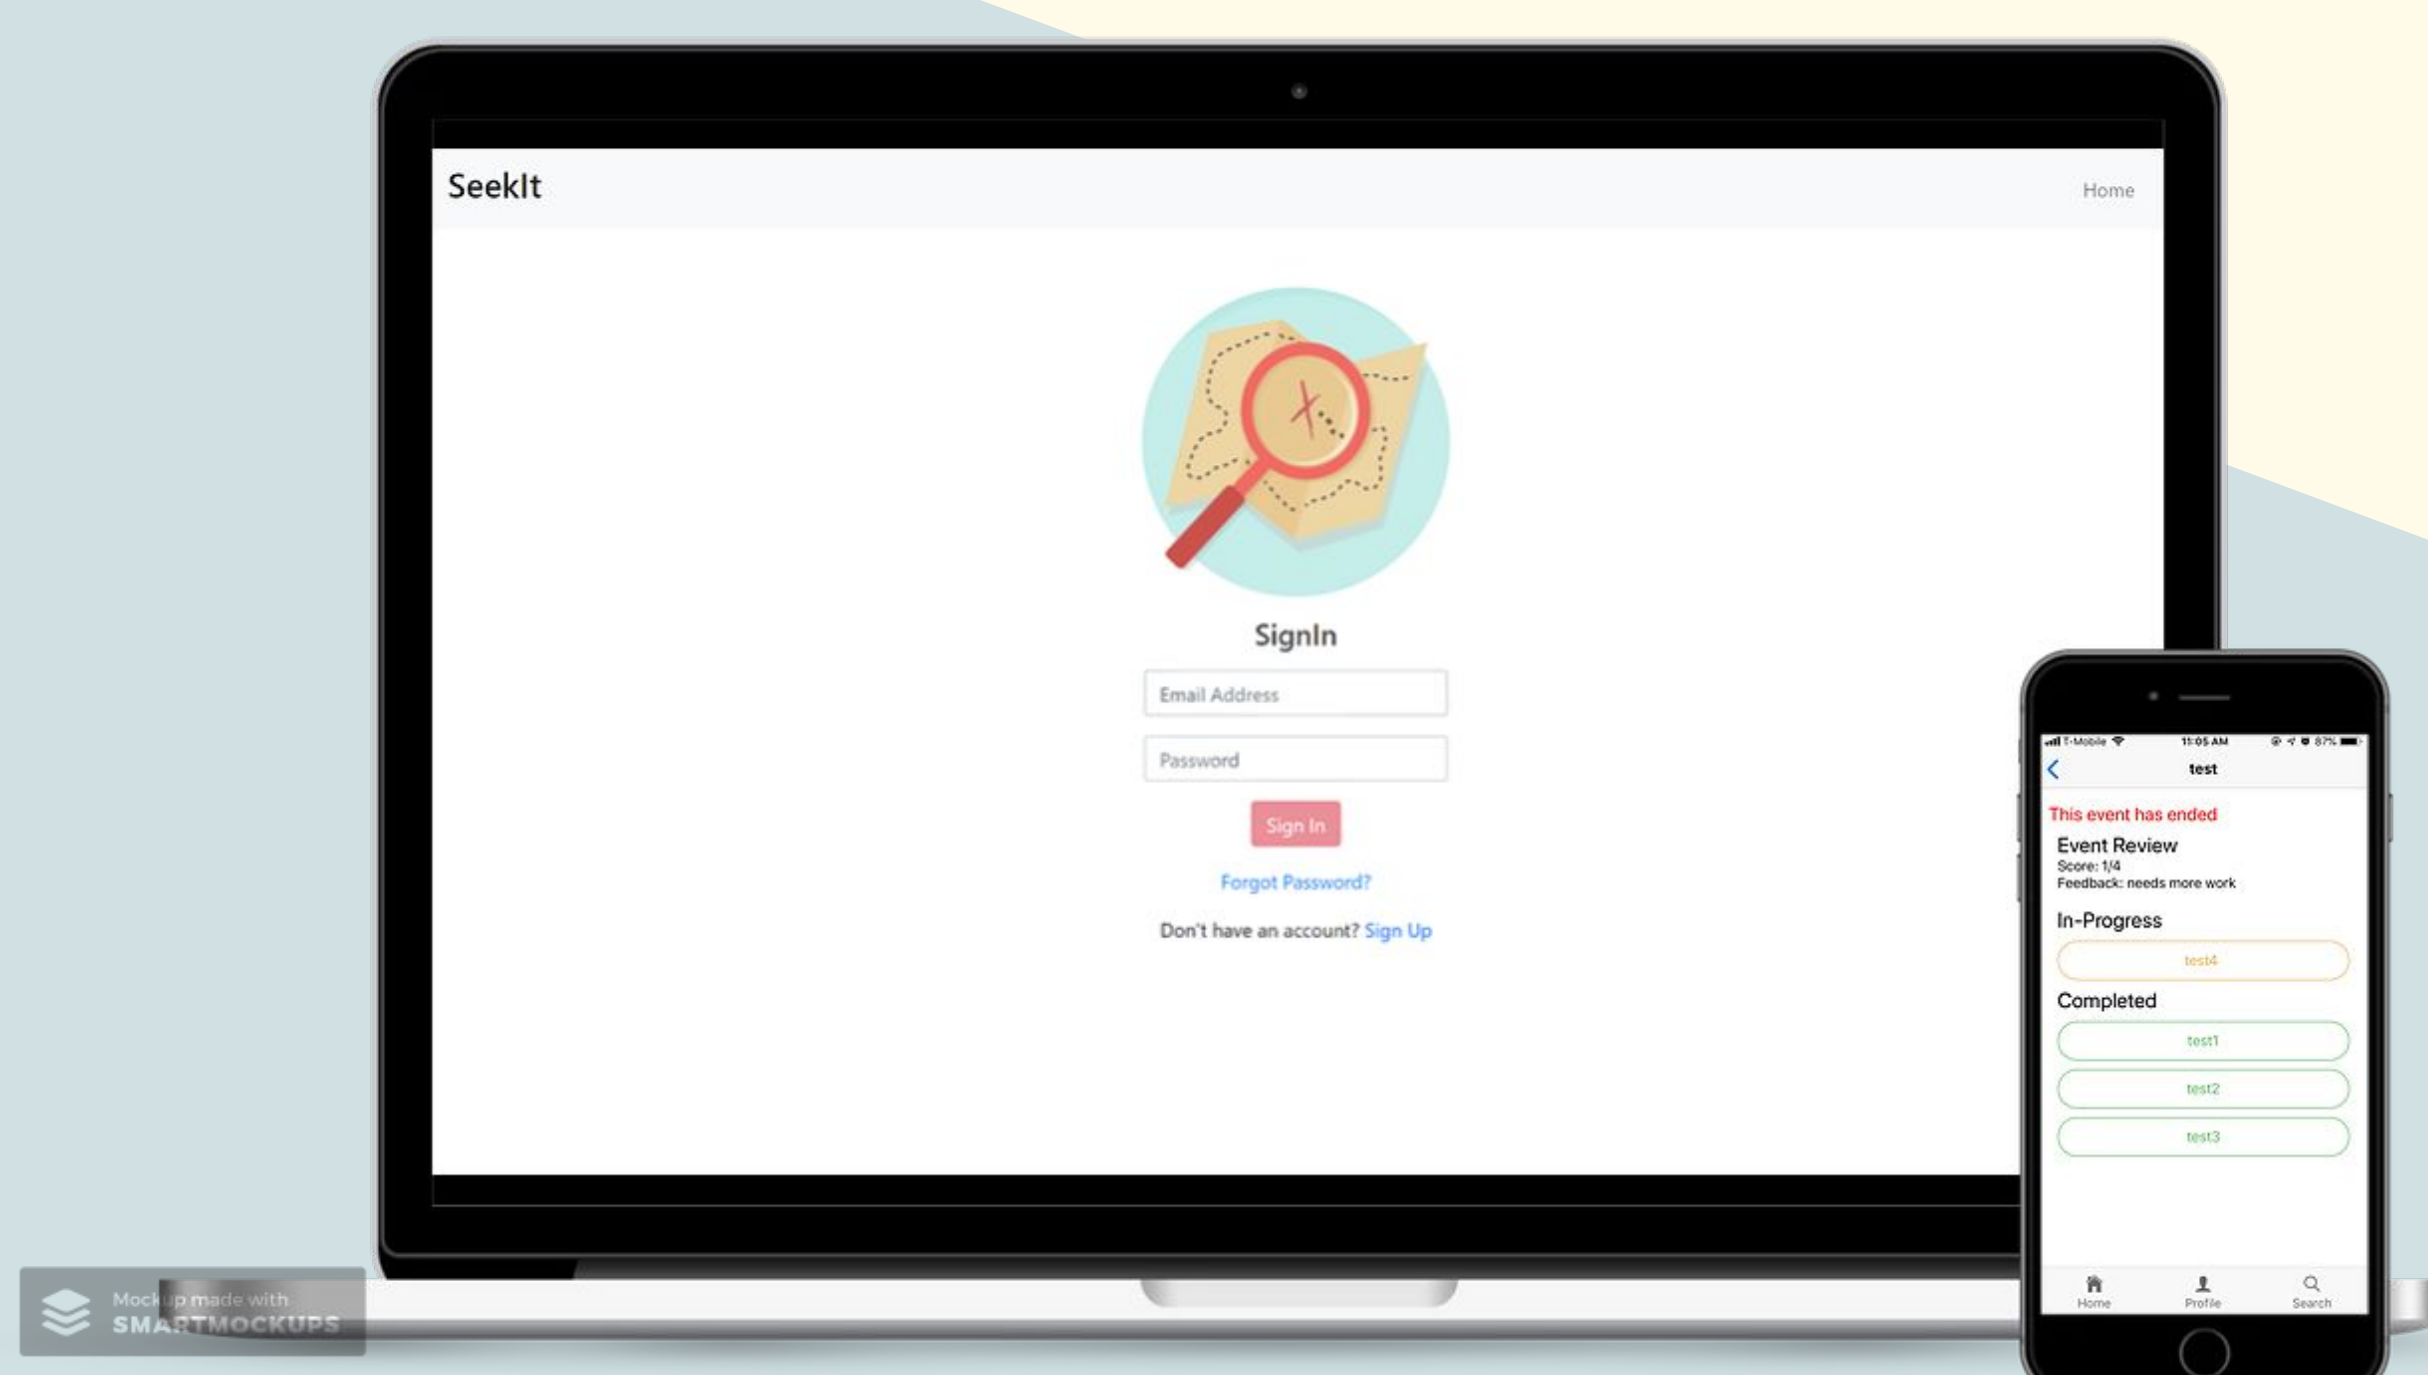

Instructors:

- Create an event for a course.
- Add tasks that accept image or text.
- Give students the access code.
- View a student's progress.
- Grade student submissions.

Students:

- Join events via access code.
- Complete tasks via submission.
- Can resubmit until event ends.
- View scores and feedback.
